AWRA E-MENTORING PROGRAM

The AWRA e-Mentoring Program is delivered by AMMA, the national resource industry employer group, and funded by the Australian Government.

The program has been developed for women in the resource, allied and related construction industries to participate as mentees, and men and women in these industries to participate as mentors.

Mentoring has been identified as a mechanism to achieve greater participation and advancement of women working in these industries, however remote locations, complex rosters and a shortage of women peers has highlighted a need for an alternative to a traditional mentoring program.

The AWRA e-Mentoring software, consisting of integrated chat, email and online support applications, provides participants with access to a tailored mentoring program regardless of location and work schedule.

WHAT DOES THE PROGRAM INVOLVE?

Participation in the AWRA e-Mentoring Program involves:

- Matching mentors with mentees across different organisations, industries and geographical locations.
- A nine-month structured mentoring relationship conducted through e-Mentoring software (Chronus) utilising email, chat, Skype and phone.
- Access to the 'Art of Mentoring' e-learning modules.
- Supporting handbook and tools to guide the relationship and assist with goal development and achievement.
- Regular webinars for mentees and mentors.
- Ongoing advice and evaluation delivered through the mentee and mentor connection.

WHAT IS A MENTEE?

A mentee is someone that is seeking personal and professional development and growth through the support of an experienced person.

The AWRA e-Mentoring Program is designed for women working in male-dominated industries who are unable to access traditional mentoring programs or connect with a suitable mentor.

The program provides mentees with a platform to develop the knowledge and skills to overcome professional and personal challenges.

Benefits to mentees include:

- ✓ Professional growth and development.
- ✓ Identification of goals and mechanisms for achievement.
- ✓ Development of problem-solving and communication skills.
- ✓ Strategic career planning.

HOW DOES THE AWRA E-MENTORING PROGRAM WORK?

The AWRA e-Mentoring Program uses special software to match and facilitate mentoring relationships. The nine-month relationship is conducted via communication channels agreed between the mentor/mentee pair and may include email, Skype and telephone.

Participants also have access to the 'Art of Mentoring' e-learning modules, as well as written resources to guide the relationship.

Mentors and mentees also participate in separate webinars and are required to complete three surveys during the program to assist with ongoing improvement.

WHEN WILL I BEGIN?

AWRA will endeavour to match every mentee with an appropriate mentor.

Pairs that are successfully matched will be placed in a cohort with a set commencement date.

Mentors and mentees that are unable to participate in one cohort will be eligible to be matched in another cohort, however this will incur a longer waiting period before commencement.

HOW DO I GET INVOLVED?

Steps for involvement in the AWRA e-Mentoring Program:

Step 1

Complete an Expression of Interest form located on the AWRA webpage at <http://www.amma.org.au/awra/awra-e-mentoring>

Step 2

A decision made on eligibility to participate:

- Not eligible – Unfortunately cannot participate in the program
- Eligible – Able to participate in the program. See steps below

Step 3

Once eligibility is approved, mentees complete an online profile providing information such as personal details, qualifications, relevant work experience, expertise, competencies sought in a mentor, and career and mentoring program goals.

Step 4

Matching commences approximately one week before program commencement. Each cohort will have approximately 8 pairs and the date of commencement is determined by the successful pairing of mentee and mentor.

Step 5

Once matched, mentees will have access to the 'Art of Mentoring' e-learning modules which they must watch prior to the first webinar.

Step 6

Week 2 after matching – Initial webinar for mentees. This webinar provides an opportunity to learn about the software, expectations of a mentee and ask questions about the program and share experiences with other mentees.

Step 7

The mentee is responsible for initiating the first meeting with their mentor. If this does not occur within 28 days after matching, the mentee's involvement in the program will be terminated and the mentor will have the opportunity to work with another participant in a different cohort.

Step 8

Week 11- Mentees complete a compulsory 'Mentoring Relationship Health' survey.

Step 9

Week 13 – Feedback webinar for mentees. This webinar will discuss findings from the survey. This is an opportunity for mentees to discuss any issues and seek guidance from the webinar facilitator.

Step 10

Week 35 – Lessons learnt webinar for mentees. This is an opportunity for mentees to reflect on their experience in the nine-month mentoring relationship.

Step 11

Week 40 – Mentees complete a compulsory 'Mentoring Relationship Closure' survey and the program is concluded.
